QUIZZ

What is Quizz?

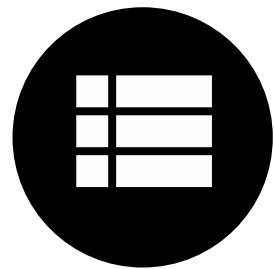

Quizz is a free online exam platform that aims to provide the lecturer with an easy-to-use multiple-choice exam publisher. Students could access the exam right after it was published, and start it whenever they like. The results will be kept and are accessible via the "My-Quiz" page of the lecturer.

Why is Quizz

Easy to use, As an evaluation tool, Quizz was an interactive online quiz platform with time limitations. **No need to login,** The user just needs to enter the room's id and username to do the exam. **2/4 choices available,** Quizz can create questions with 2 choices or 4 choices. **Check exams result in one click,** for each room creator, Quizz has results for every room, just click to show!

Features

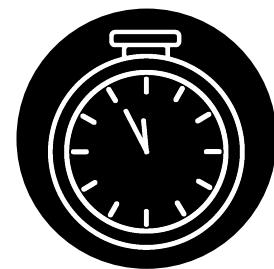

2 choices or 4 choices

Each problem can be either 2 choices or 4 choices. The exam host could choose it right at the quiz making interface. Moreover, the quiz could be mixed between 2 choices and 4 choices problems

Quiz score

Results showed immediately after the user has done the exam.

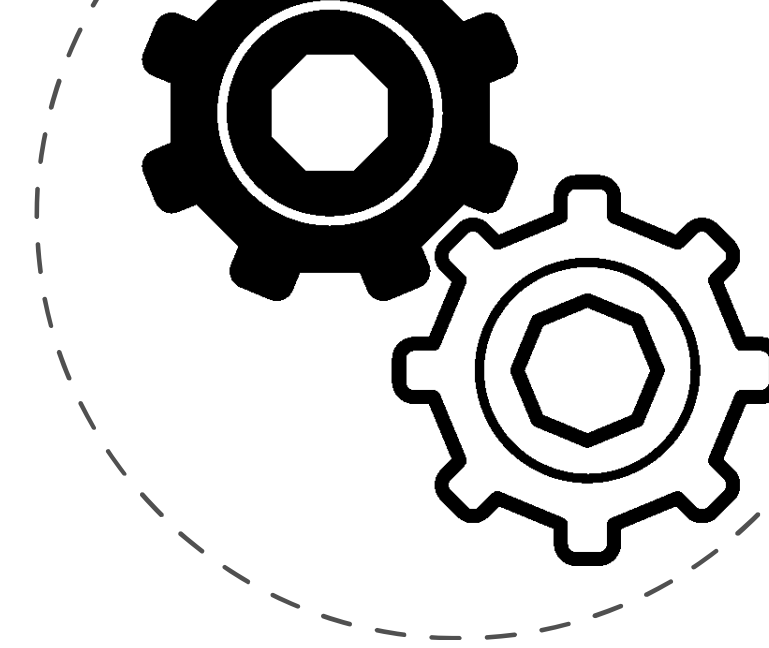

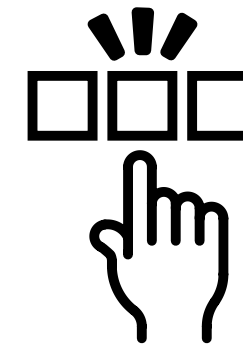

Live Timer

During the exam, students can check the time went by and the given time at the top of the page. Thus, they don't need to worry about the time

Time's up! Auto-Submit

When timer is ringing, user are forced to submit

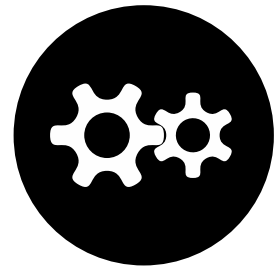

Features

User's privacy

We don't collect any data from users (except the quiz)
Neither age nor email is required. Feel free to use!!

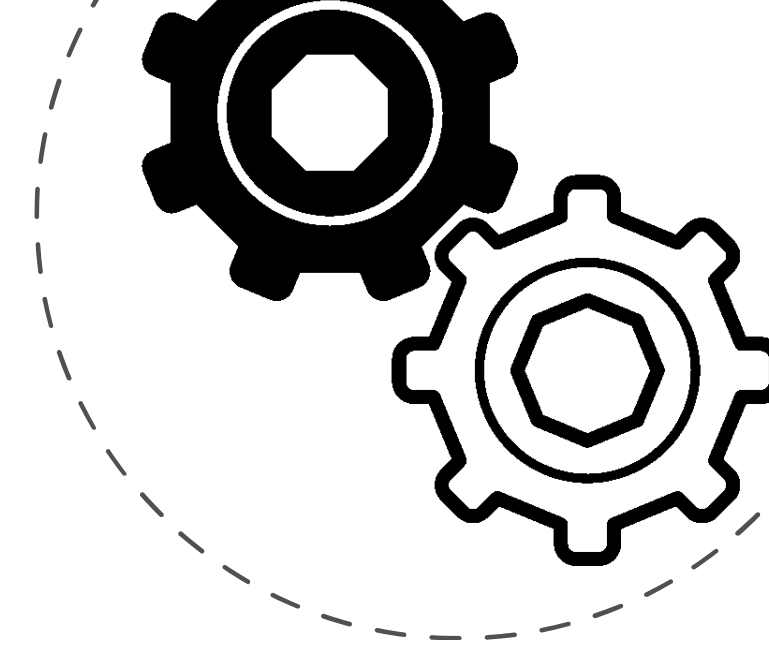

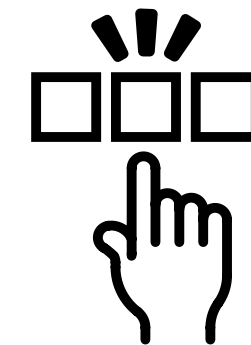

Evaluation

The room's owner can check the result from all users.

Responsive

Looks great and works fine on any devices. No matter it is on mobile or desktop browser
